nofar is liron best friend.

from the beginning i knew that the way to liron have to go thru nofar.

this way i can catch 2 birds in one strike :)

nofar was more opened to the hole tickling idea then liron so i was concentrating all my power on her.

finally when nofar said YES, i knew that i got them both. nofar wasn't so sure (like liron ) if she is ticklish or not.

after we tied her up she started to feel nervous ans started to breath really fast. when the tickling started it was a closed deal and no one could doubt it. NOFAR IS TICKLISH.
