update 29.07.13

hay everyone.

after fighting for a year 11 months and 4 days

my father left us for a better place...

we did everything that was in our power but sometimes it just isn't enough...

i really want to thank everyone that helped me by donating or saying good encouraging words.

thanks you !

shay.

Update 23.10.12

Hay everyone!

As I promised I have an update. (Sorry for not updating for so long)

So,

We are still on treatment.

When we arrived to Texas the MRI results where bad.... it showed that the tumor has divided and that the chemo didn't really affected him.

Since we got back from Texas we are on the treatment.

I don't want to be too optimistic but the last MRI shows that the tumor has stop growing and didn't divide for more tumors.

It even looks like there is some decrease in the tumors size. (For this kind of tumors this are great news!)

So we are keeping on with the treatment and hoping for more good news....

Off curse that the treatment payment is still huge (8000\$ per month)

So I appreciate every help that I can get.

Thank you all again for your support!

In the past and in the future!

Yours, shay.

hay, first off all, let me start by saying that i wish that i didn't need your help. but i do.

i will tray to do this as short as possible.

6 months ago my father was diagnosed with glioblastoma. (brain cancer).

after starting chemotherapy treatment here in israel we got to the conclusion that the chemotherapy will kill him,

before it will have any effect on the cancer.

i wasn't willing to give up on my father. he is the best father that i could ask for and i decided to do anything in my power to help him.

after long research i have found the burzynskiclinic in Houston Texas.

after almost 2months of mailing and talking i decided that this is our only option.

as most of you know we are located in Israel. tha't 16 hours flight from Houston.

i decided to take my mother and father and start the treatment.

why am i telling you this ?

I am telling you because i need you're help !

the treatment coast is EXTREMELY high.

i have no idea how i would do it. but i decided that i will do everything in my power.

because i have to save my father.

i decided that i don't want just to ask for money. so i decided to share 4 free full clips.

every one here in this forum can download this clips. they are free.

if you can (and want) i need you're help.

you can transfer any amount of money to my PayPal account.

4\$ 6\$ 10\$ 14\$ 24\$ 40\$ 100\$ or any other number. what ever you fill like.

EVERY DONATION COUNTS !

if you can't or don't want to donate. don't feel bad. you can still download this free clips.

the treatment should coast about 14000\$ per month !, in the good scenario. and this is without flight ticket for 3 people,

and staying in Houston for at least 3 weeks.

we are talking about 150000\$ for the whole treatment which are almost half million Israeli shekels ! :(.
the insurance company won't cover it because this treatment isn't approved.

well, i think that i wasted enough of you're time.

enjoy the clips. help if you can.

if i see that people are trying to help i will upload more clips.

this forum has been my home since 2005 when i discovered it. and this is the first place that came up in my head when i needed help.

thank you all for reading.

A tale of two sisters.

So a girl named Shirel came to us through an ad and asked if she could also bring her sister so she will feel more comfortable.

and maby her sister would also like to film. Of course I said!,

As they entered they saw perspexi (our new device) shirel got really nervouse

And asked her sister to go first...,

Lovely girl very open and fun, really cute, and the most important very very ticklish!!! All over her body!!.

as we stated tickling her we could see her sister truly terrified on the couch , as they claimed shirel is even more ticklish

so I couldn't wait lay my hand on her J.

So we finished torturing her sister who said she really enjoyed but Shirel was really scared and uncomfortable,

we told her she better try she came all the way and she agreed, so we tied her up... and she wasn't ticklish at all...

I think its because she was really stressed and uncomfortable with the situation, a sweet beautiful girl, it was a shame but we let her go after 5 minutes...

Elinor's feet

FULL CLIP IS 11min LONG ! NON STOP FEET TICKLING !

Ok this preview was very hard to edit because it was so good!

I actually almost felt sorry for her while watching it because I realized that we didn't really gave her any break while tickling her extremely ticklish feet!!!

She got insane, banging on the bed... it was hilarious and really hard keeping her still So her friend (which she brought to protect her) help me hold her.... And when I took out the brush lol, she started saying that it won't tickle with a brush but was interrupted with uncontrollable laughter,

it was great at some point we flipped her on her belly and she sensed I took the bra and started laughing screaming no!!!!

Hope you enjoy ! reut
